CLEARWATER SYSTEMS

The Environmental Leader in Water-Treatment Technology

The Dolphin System™: A High-Performance, Chemical-Free Solution

There is now a more effective, more efficient, and more environmentally responsible way to treat the process waters of cooling towers, chiller systems, heat exchangers, and steam boilers. Clearwater's Dolphin System prevents the discharge of toxic chemicals into the environment, saves energy and water, and enhances the indoor-air quality of hundreds of the largest office complexes, hospitals, industrial parks, and other buildings throughout the nation.

ON COOLING TOWERS

- **Superior Performance.** Minimizes bacteria counts; eliminates biofilm, algae, and fungus; prevents scale buildup, extends the operational life of cooling tower systems.
- **Environmental Benefits.** Ends the regulatory, liability, and health concerns associated with chemicals. *Contributes to green building tax credits.*

- **Cost Savings.** Eliminates all chemical costs; lowers energy costs; saves on water purchase and disposal fees.

ON STEAM BOILERS

- **Superior Performance.** Eliminates scale; maintains safe and reliable pH in boiler water, making boilers more efficient and longer-lasting.
- **Environmental Benefits.** Ends regulatory, liability, and health concerns with chemicals. Alleviates indoor-air quality impacts. Simplifies boiler room cleaning requirements. *Contributes to green building tax credits.*
- **Cost Savings.** Eliminates all chemical costs. Lowers energy costs. Creates significant savings in BTU value during water disposal.

- **Contact us** to learn more about how we can help you reduce energy, water & chemical costs while improving the environment at and around your facility. Conservation Solutions Corporation is an approved non-chemical water treatment vendor for the Commonwealth of Massachusetts.

G.A. Blanco & Sons, Inc is a SOWMBA certified, minority-owned business incorporated in the Commonwealth of Massachusetts for over 25 years. We are a distributor of all major manufacturers of remanufactured toner cartridges, magnetic media, computer/data center furniture, and ergonomic products. Currently, we hold MA statewide contracts OFF060100 for remanufactured laser toner cartridges and inkjet supplies; contract ITC-08 for information technology supplies and accessories; contract OFF-03B for data center and local area network (LAN) furniture; and contract OFF020100 for Xerox consumables. Our vendor code is 020327245.

We're bombarded with messages of things to avoid, boycott, and protest, but then we're left wondering what we can feel good about. Equal Exchange coffee is one of those things!

Seventeen years ago Equal Exchange challenged the status quo in the US, by creating an alternative way to trade directly with small farmers. By having long-term relationships with these farmers, we and the farmers gain a lot a healthier environment, tight-knit communities, and great taste! Organic shade-grown practices lead to healthier farmers, rainforest protection, and pesticide-free coffee, tea and hot cocoa for our daily consumption.

For more information on Equal Exchange and how to bring our fairly-traded, organic products into your home, office, and community, please contact Lynsey Miller at LMiller@equalexchange.com or call 781-830-0303.

MICROSORB

Bill Pacific
104 Longwater Drive
Norwell, MA 02061

Phone: (781) 878-0440

Fax: (781) 878-8004

Email: wlp56@aol.com

Web Address: www.microsorb.com

MicroSorb is a special formula designed to optimize the recycling phenomena with the addition of oil-eating microbes. It contains naturally occurring microbes that convert the contaminant into non-toxic components, thereby eliminating the problem of disposal. These microbes are housed in an inert fine powder carrier which absorbs and locks in the contaminant during remediation. The naturally cultured microbes then consume and convert the contaminant. The final bi-products are simple carbon dioxide, water, trace carbon, fatty acids and bacteria cells.

Email: pds@norganics.com

Web Address: www.norganics.com

North Country Organics (NCO) was founded in 1983 with the concept that agriculture and horticulture can be productive, successful, and profitable without compromising the earth's delicate ecosystem. NCO manufactures and distributes natural fertilizers, soil amendments, bio-stimulants, and environmentally compatible pest controls to commercial and wholesale accounts. In addition to natural products, we also offer ecological consulting to horticultural clients.

OCE PRINTING SYSTEMS, INC.

OFF02

Jim Driscoll
404 Wyman Street
Waltham, MA 02451

Phone: 800-788-5913

Onyx Environmental Services (ONYX) is the nation's premier recycler of fluorescent lamps, lamp ballasts, batteries, and electronic equipment. Additionally, ONYX manages all types of hazardous waste in lab pack, drum and bulk containers. ONYX serves a broad customer base including municipal, commercial and Fortune 500 companies. ONYX provides these services through state of the art facilities located in New England and nationally.

ORGANIC AND NATURE, INC.

Jeffrey Lederer
130-30 31st Avenue
College Point, NY 11354

Phone: 877-520-5433

Fax: 718-461-7251

Email: jlederer@organicandnature.com

Web Address: www.organicandnature.com

Organic and Nature Inc. supplies industrial-strength environmentally-safe products and programs to municipalities, golf courses, schools, and universities. Our natural Pesticide and Herbicide replace harmful toxic products, like Monsanto's Roundup, as well as others. We also provide education and training on how to plan for new legislation such as the Pesticide Law. At the head of the march towards safer environments, you'll be in good company - several large municipal divisions, universities and schools already use our products. Since our products are price competitive, it no longer pays to "play it dangerous."

PAINT RECYCLING CO.

100 Main Street
Springhill, Nova Scotia, Canada B0M 1X0

Phone: 902-597-8000

Fax: 902-597-8399

Email: ohoh@nbnet.nb.ca

Web Address:

The Paint Recycling Company began in 1994 as a collection operation, but within a few years began selling our Nature Colors paint, made with 95% - 100% post-consumer recycled paint to the public. Usable material is tested in an independent laboratory for heavy metals and PCBs, while old metal containers are crushed and recycled. A complex process of expert analysis, screens, filters and tints is then used to create high quality, competitively priced paint. Nature Colors has been welcomed by both consumers and painting contractors. In addition, The Paint Recycling Company guarantees that if you are not satisfied with the high quality of our product, we will replace or reimburse for the cost of the product.

PERFECTA CAMERA

OFF04

Web Address: www.envirobag.com

Phoenix Recycling is a manufacturer of plastic trash bag systems for municipalities who do PAYT Programs, Blue Bag Programs, overflow and uniform private label city bag programs. We offer a turn key system including; store delivery, custom packaging, supermarket billing, marketing, public relations, and community education. Through a network of 4000 schools nationwide, Phoenix Recycling collects post consumer plastic grocery bags that are recycled into out trash bags. The Phoenix Meta-Bag technology is a special blend of post consumer polyethylene and high performance virgin polymers. Our state of the art co-extruded bag yields a superior strength and toughness.

PFG / SPRINGFIELD FOODSERVICE CORPORATION

GRO14

Shane Gebo
340 Taylor Street
Springfield, MA 01101

Phone: 413-262-7228

Fax: 413-781-6301

Email: sgebo@pfgspringfield.com

Web Address:

PFG / Springfield Foodservice Corporation is one of the two Prime Grocers on statewide contract # GRO14. We can supply hundreds of different products that you would normally find in a grocery store under one comprehensive contract. Many of these items include environmentally preferable products (EPPs), such as paper towels, facial and toilet tissue, and napkins, all made with post-consumer recycled content percentages that meet the federal and state standards. In addition, there are both paper and polystyrene foodservice trays, plates and bowls made with recycled content, as well as disposable wipes and EPP odor control products.

PLANT HEALTH CARE, INC.

Craig Wall
PO Box 161
South Deerfield, MA 01373

Phone: 413-665-8766

Fax: 413-665-8746

Email: cwall@planthealthcare.com

Web Address: www.planthealthcare.com

Plant Health Care has harnessed the power of nature and put it into your hands. We've formulated and packaged mycorrhizal fungi and beneficial bacteria. Most landscape soils are highly compacted and low in organic matter. The result is high plant mortality, poor quality growth, and more pesticide use. By using our products, we help you create sustainable landscapes that cost less, provide more value and last longer.

POLYWOOD

Standard Electric Supply has been empowering business since 1952. At Standard Electric, we believe teamwork is the key to success. That's why we have created an Alliance to deliver energy efficiency and cost savings to our customers in these times of rising energy costs. Headquartered in Wilmington, Massachusetts, Standard Electric is teaming with its lamp and ballast partner, SYLVANIA, to deliver energy savings to customers throughout the Northeast. If your current system uses older technology such as Incandescent, T-12, T-12 High Output, 400 Watt HID lamps and magnetic ballast, you are a candidate for this program. SYLVANIA has developed several new technologies that improve the quality of light and greatly reduce energy consumption and system operating costs. See ad below on this page.

Email: walter.hillman@tenantco.com

Web Address: www.tenantco.com

TENNANT COMPANY, established 1870. USA manufacturer, direct sales and service of facilities and grounds cleaning equipment. Introducing CENTURION, mechanical broom and vacuum dry dust controlled street sweeper technology. CENTURION can save millions of gallons of water, double curb mile sweeping productivity, remove more fines and silt contaminants off roadways, reduce storm drain cleaning costs, reduce airborne PM-10 dust particles, reduce contaminants and floatables from storm drains and waterways.

TERRESOLVE TECHNOLOGIES

VEH18

Tim Fitzgerald
18 Phillip Street
Haverill, MA 01830

Phone: 978-273-6707

Fax:

Email: cid88fitz@msn.com

Web Address: www.terresolve.com

Terresolve provides a broad spectrum of bio-based (vegetable oil based) products on MA state contract #VEH18 as an environmentally preferable alternative to similar petroleum products. The EnviroLogic products are not only designed for exceptional performance, but they meet original equipment manufacturer requirements as well as the same ASTM standards as petroleum based lubricants. Some of the products include hydraulic oils, tractor transmission hydraulic oils, two cycle engine oils, bar and chain oils, duct control oils and preservative lubricants. Added benefit of bio-based - when spilled, these products pose no immediate threat to the surrounding environment. Conversely, a petroleum spill can contaminate streams, harm/kill vegetation and wildlife and carry a costly remediation.

THE BAG COMPANY

DEP99-2000-4

Paul R. Bitters
26 Woodard Road, PO Box 565
Greenfield, MA 01302-0565

Phone: 413-774-3683

Fax: 413-774-4001

Email: sales@bagimprinters.com

Web Address: www.thebagcompanyinc.com

The BAG Company in Greenfield, MA provides custom printed poly trash liners for municipal refuse and recycling programs made with a minimum of 20% post-consumer recycled plastic, that are available for purchase on state contract # DEP99-2000-4. The BAG Company is also an in-house printer of custom printed paper bags for retail, commercial and institutional use, in small volume runs.

THE GARLAND COMPANY

Web Address: www.mohawkgroup.com

Mohawk, a leading Fortune 500 Company is dedicated to Environmental Stewardship in all its processes and products. As a leader in the carpet industry we take great pride in reducing the environmental footprint in all our products. Our goal is total sustainability in commercial product design. From cycling one third of soda bottles away from land-fills into Polyester carpet to the closed loop sustainability of colorstrand Infinity nylon. Mohawk's promise to sustain our environment for future generations is your assurance of quality.

THE NEW ENGLAND RAINBARREL COMPANY

Martin Greenstein
131 1/2 Lynnfield Street
Peabody, MA 01960

Phone: 978-977-3135

Fax: 978-921-1027

Email: marty@nerainbarrel.com

Web Address: www.nerainbarrel.com

Our Company builds rain barrels that start with previously used plastic barrels. Rather than have these barrels wind up in landfill, we buy them from a recycler and retrofit them into rain barrels. We work with municipalities and actually run the conservation program for them, so the city or town does not have to buy anything, sell anything, store anything, deliver anything or collect any money.

TOYOTA OF WEYMOUTH

VEH34

Adam Vogel
720 Bridge Street, Route 3A
Wetmouth, MA 02191

Fax: 781-331-9148

Email: adamvogel518@hotmail.com

Web Address: toyway@aol.com

Toyota is the leader in the development of fuel efficient hybrid vehicles. The Prius (a hybrid vehicle) is near the end of its first five-year generation. In the fall of 2003, the new 2004 model (second generation) will be larger (grows from compact to mid-size), faster (the old ones tops out at 105), cleaner it's already a super ultra low emission vehicle, but will get 30% cleaner), mileage increase (from upper 40's to upper 50's), handling (longer wheel base and wider track with 15" tires), and acceleration (like a 4-cylinder Camry).

We can't keep polluting the air and we can't keep making the oil producers rich. The environment and future generations love the PRIUS.

Web Address: www.waterpureassoc.bizland.com

Water Purification Associates (WPA) is dedicated to the controlling of a broad spectrum of bacteria, viruses, algae, fungi, and yeast electronically (ionization process), with the elimination and/or reduction of chlorine and other hazardous chemicals. The systems and services available on MA state contract FAC17 reflect our primary areas of expertise - swimming pools, cooling towers, and commercial hot water systems. However, we recently entered the agricultural market with the reduction of pesticides and fungicides which are known to be hazardous to the ecology and food supply.
